WORK EXPERIENCE

WhatsApp Marketing Intern

Expodite - Export Management Software

2024 – Present
Remote

- Build targeted high-quality B2B lead lists within the export industry using Aisensy automation.
- Execute daily bulk campaign workflows to guide potential leads smoothly through the sales funnel.
- Set up automated qualification systems to secure instant user engagement for initial queries.

Video Editing & Content Strategy Intern

Video Editing & Content Creation Agency

2024 – Present
Remote

- Produced and edited high-retention video assets optimized for platform algorithms to capture viewer attention.
- Monitored performance analytics, utilizing Audience Retention Graphs, CTR, and conversion metrics to iterate on visual pacing.

UI Designer Intern

HRHNext Services

2023 – Present
Remote

- Designed functional Figma interfaces including user login screens and structured employee data entry views.
- Engineered a dynamic visual heat-map of employee locations to drive data-backed office relocation planning.

Sales Consultant

Telstra

03/2025 – 07/2025
Sydney, NSW

- Delivered tailored product solutions that drove retail store sales and consistently boosted client loyalty.
- Managed in-store and phone enquiries professionally while supporting stock and merchandising operations.

PROJECTS & INNOVATION

Product Evaluation Metrics (Coditas)

04/2026 – 04/2026

- Applied Google's HEART framework to evaluate user engagement, happiness, and task success rates.

B2B Marketing & Web Strategy (Expodite)

02/2026 – 04/2026

- Formulated strategic corporate proposal frameworks targeted at enterprise clients to scale market viability.
- Structured brand-aligned website layouts to optimize user navigation and streamline conversion pipelines.

Beni Impex E-Commerce Platform Overhaul

03/2026 – 03/2026

- Architected a technical web migration, moving legacy data schemas and complex product tables to a modern platform.
- Connected the frontend to a Supabase (PostgreSQL) backend for secure, real-time relational data modeling.
- Implemented a custom CMS and Admin Portal allowing non-technical stakeholders to securely log in, audit inventory, and perform full, real-time CRUD operations on product listings.
